Professional Experience

IT Technical Assistant – Digital Experience Services

May 2026 - August 2026

McMaster University, Hamilton, ON

- Supported the migration of enterprise content and services to Microsoft Dynamics 365, ensuring accuracy and alignment with business requirements.
- Collaborated with cross-functional teams to develop and maintain SharePoint sites and web content, supporting digital transformation initiatives.
- Conducted UI/UX testing, UAT, and quality assurance for the Dynamics 365 Customer Portal by creating test cases, validating functionality, and recommending usability improvements.

Service Desk Analyst – IT Department(UTS)

September 2025 - December 2025

McMaster University, Hamilton, ON

- Delivered front-line technical support to faculty, staff, and students, resolving hardware, software, account, and Microsoft 365 issues.
- Managed service requests and incidents through ticketing systems, ensuring timely resolution and escalation when required.
- Collaborated with IT teams to enhance service delivery, troubleshoot complex issues, and improve the overall user experience.

Computer and Digital Skills Helper

October 2024 - April 2025

Mohawk College, Hamilton, ON

- Provided technical support and training on Microsoft 365 applications, including Word, Excel, PowerPoint, and OneDrive.
- Facilitated workshops on digital literacy, internet navigation, email communication, and cloud-based technologies.
- Developed user guides and delivered one-on-one assistance to help students resolve issues and improve digital proficiency.

Project Experience

2M Store Online Personal Shopper Platform

January 2026 - April 2026

Software Engineering Project, Mohawk College

- Worked with a real client to develop a full-featured online personal shopper platform.
- Implemented international shipment tracking with admin-managed status updates: Shipped → In Transit → Delivered.
- Built a shipment form capturing tracking numbers and warehouse details per order.
- Developed an in-app notification system to alert clients on order creation and status changes through to delivery.
